**Colour Vision
No 23**

Natural resources, the feeling of warmth, receiving energy and the astounding spectrum of natural greens are what inspired Gabriel-Chemie to its CV 23 series. The Green Task focuses on our natural surroundings and their benefit to our well-being. The Gabriel-Chemie Group takes pride in preserving our world in a sustainable and meaningful way to be more in harmony with our environment.

All the subsidiaries of the Gabriel-Chemie Group worked on this CV 23 issue and were given “The Green Task” of analysing new trending colours across Europe and being part of this creative process. The genesis of our annual collections is influenced by socio-economic impulses and colour-trends from other industrial sectors. Every theme is then developed into nine innovative colour-plaques.

The creative collaboration of all of Gabriel-Chemie’s subsidiaries on the development of “The Green Task” and its Colour Vision 23 is the source of its pride.

The nine shades of the Colour Vision No 23

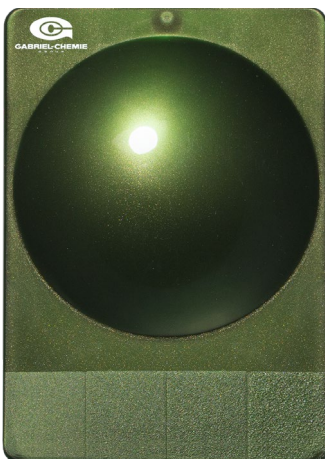

PET6GB3587- Perlmutter
Balance Green
E=2% in PET

HP6BC0267- Perlmutter
Tripple G
E=4% in PP

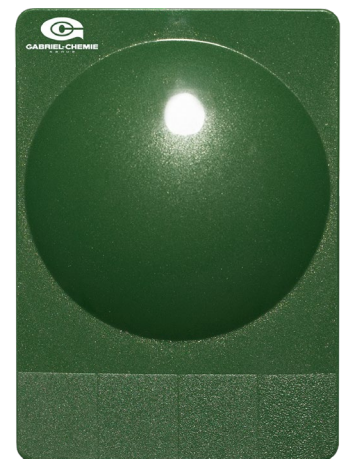

PET6GB3557- Perlmutter
Bright Future Green
E=3% in PET

HP6DB8807- Perlmutter
Green Vintage
E=2% in PP

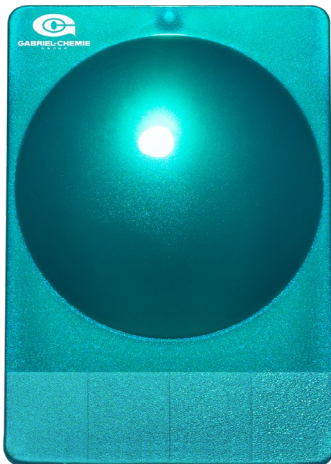

UNS9BC2097- Marble
Wild Green Marble
E=15% in rPP-PCR

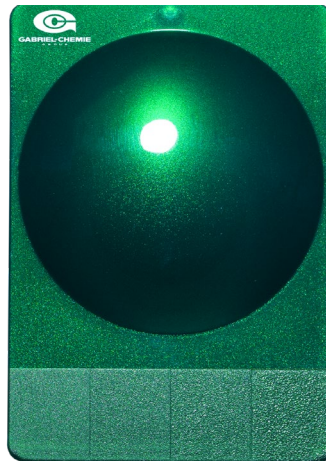

PET6GB3567- Perlmutter
