process*

**Decorative
Solutions**

**MARBLE
STONE
COLOURS**

Explore the difference - Decorative Solutions is our source of inspiration. It lifts the possibilities of plastic packaging to another level and enables you to explore our products with all senses on many different surfaces.

Creativity has no limits – Marble Impressions stand for provoked individuality, controlled randomness as well as imaginative whisper of colours. Effects such as marble veins, wood grain, oxidation processes or stone surfaces can now be realised in plastic applications. Your product differentiates itself right from the first drop of colour infusion.
