10 Years of Gabriel-Chemie Italia – A Decade of Passion, Commitment & Progress

Fara Gera d'Adda – Gabriel-Chemie proudly celebrates 10 years of Gabriel-Chemie Italia s.r.l. being part of the Group – a decade defined by growth, innovation, and strong partnerships in the region.

Since its establishment in 2016, the site in Fara Gera d'Adda has played a key role in strengthening the company's presence in Southern Europe. Over the past ten years, it has developed into an important hub, supporting customers with high-quality solutions and technical expertise.

At the same time, the integration of the Italian site has significantly strengthened Gabriel-Chemie's position in the field of flame retardants. It has enabled the company to expand this segment further, enhance product development capabilities, and better address customer needs in this strategically important area.

"The acquisition of Te.Ma by the Gabriel-Chemie Group in 2016 created significant benefits for both parties. For Gabriel-Chemie Group, it represented an opportunity to strengthen its presence in the second most important market in Europe through a production site specialized

in flame-retardant (FR) MB and stadium seating applications. At the same time, the consolidated expertise of Gabriel-Chemie and its broader product portfolio enabled the Italian site to expand its market presence substantially, almost tripling its turnover over the past ten years. The excellent work carried out by the team at Gabriel-Chemie Italia provides a strong foundation for further growth in the future."

- Matteo Borioli (Head of Sales at Gabriel-Chemie Italia)

Throughout the years, the site has contributed significantly to the company's success, driven by a dedicated team and a strong focus on customer needs. Close collaboration with partners and customers has enabled the development of tailored solutions and long-term relationships.

Looking ahead, Gabriel-Chemie Italia remains committed to further strengthening its presence and continuing to invest in innovation, sustainability, and customer-centric solutions.

The anniversary not only marks a significant milestone but also sets the foundation for future growth and continued success.

GABRIEL-CHEMIE specialises in refining and colouring plastics. The company was founded in 1950 and is now one of Europe's leading masterbatch manufacturers. The independent, privately owned group is operating globally and has its headquarters in Gumpoldskirchen in Austria, and operates further subsidiaries in Germany, Great Britain, Hungary, the Czech Republic, Poland, Italy, Spain and Kenya.
